MARCO JURIDICO Y LEGAL TRANSNACIONAL 14

OBJECTIVE

The objective of this Policy is to establish responsibilities and obligations for the Companies' Employees and Third Parties acting on their behalf, so that they understand and comply with anti-corruption laws in the course of their daily activities, when conducting business, and in all relationships that may arise in the normal course of operations—thus preventing the risks of Corruption and its potential legal, commercial, reputational, and other consequences.

SCOPE

This policy applies to all Employees and Third Parties who have a relationship with EBEDIX Companies.

- EBEDIX SAS
- EBEDIX LLC
- VREADY NOW LLC
- EBEDIX SPAIN
- DRONES SKY SOLUTIONS SAS

GENERAL GUIDELINES

1. Corruption and Bribery

EBEDIX has a “Zero Tolerance” policy toward acts of Corruption and Bribery of any kind. Therefore, it is strictly prohibited for Employees or Third Parties acting for or on behalf of any of the Companies that make up the Group to engage in such conduct.

Employees are forbidden from offering or promising any form of Gratification, either directly or indirectly, to Public Officials, Private Entities, or their Relatives, with the intent to influence them to use their position, power, or influence to help the Companies gain an improper advantage. Similarly, under no circumstances should Employees request, demand, accept, or receive any form of Gratification for themselves or their Relatives from a Public Official or Private Entity that could result in an apparent and improper benefit for the Company or the Employee.

Acts of Corruption and Bribery include not only cash payments but also anything of value, such as inflated commissions, preferential treatment, gifts, discounts or rebates below fair market value and/or losses, excessive hospitality beyond established limits, and personal contributions or donations—when given to a Public Official or Private Entity, or their family members, in exchange for a tangible or intangible benefit.

2. Relations with Government

In the various sectors in which EBEDIX Companies operate, interactions with Public Officials may occur in order to carry out procedures established by law, such as: (i) requesting the issuance of permits and licenses, (ii) importing equipment and other products, (iii) selling software licenses and/or subscriptions, (iv) having government institutions as clients, among others.

The Companies will strive to establish cordial and harmonious relationships with Public Officials at all levels; however, it is essential that these relationships are developed in compliance with applicable laws (e.g., anti-corruption laws) and this Policy. Therefore, all interactions with Public Officials must be conducted with respect, fairness, justice, honesty, and transparency, clearly defining the purpose of the relationship and ensuring they are documented clearly and thoroughly. The areas that interact with authorities must maintain a file with records of the interactions and progress of the procedures.

Under no circumstances should gifts be given, offered, or promised to Public Officials, their family members, partners, or any entities in which the Public Official is involved. Similarly, it is prohibited for Employees or Third Parties acting on behalf of EBEDIX to promise payments, discounts, or any items of value to a Public Official or Government Entity with the aim of influencing, obtaining, or maintaining business for themselves, for others, or for EBEDIX.

Only payments made directly to entities whose purpose is legitimate for the operation (such as payment of fees for a request, permit, license, etc.) and supported by an official receipt will be allowed, authorized, and reimbursed.

3. Permits and Licenses Procedures

The obtaining of permits and licenses required for the operations of the Companies may be processed directly by Employees or through Third Parties authorized by EBEDIX Companies, provided that the latter have successfully passed the "Due Diligence" process prior to their hiring and have signed a contract in which they commit to comply with applicable anti-corruption laws and our Code of Ethics and Conduct. The process must be carried out in a lawful, ethical manner and in accordance with regulations.

4. Participation in Bidding Processes

All participations of the Companies in public or private bidding processes must be conducted in compliance with the relevant laws and regulations.

Employees must not give, offer, or promise—either directly or indirectly—through any Third Party, money or anything of value to a Public Official, a Third Party, and/or their Family members with the intent to influence their authority in order to benefit the Company or to win a public contract or bid.

- Employees must not obtain, nor attempt to obtain from any source
- Non-public information regarding government bids or offers.
- Private information of a competitor, including, for example, information that could be used to participate in a bid during a government purchasing process or in any other situation where it can be assumed that such information should not be disclosed without permission.
- Employees must never compromise their position in discussions with Third Parties from other companies or with Public Officials.

5. Political Contributions

Employees or Third Parties must not, directly or indirectly, on behalf of EBEDIX Companies, make contributions or donations to political parties, candidates, political organizations, electoral campaigns, or any individual or entity, association, organization, union, or any other type of entity dedicated to politics, related to political activities, whether in Colombia, the United States, Spain, or any other foreign country.

The Companies recognize and respect their employees' right to participate in political activities; however, such participation must be legal, personal, and not interfere with or compromise the obligations and responsibilities the Employee has assumed as part of their employment relationship. In the event that an Employee makes political contributions personally, these must comply with the applicable legislation.

Employees' participation in political activities must not, under any circumstances, be done on behalf of EBEDIX Companies, nor during working hours, and must not be interpreted as a contribution made on behalf of the Companies. Additionally, under no circumstances are Employees allowed to use the Company's resources (such as office space, equipment, vehicles, machinery, etc.) for these purposes.

6. Hospitality

It is prohibited to offer, request, or accept invitations to any form of entertainment, as they may be perceived as an attempt to influence or induce any party to take actions that would improperly benefit the Companies, Employees, their family members, friends, associates, or acquaintances.

Payments and reimbursements for meals with a Public Official, or generally with any Third Party, are only allowed for strictly business-related reasons and if they are legally and socially acceptable. Additionally, the General Manager must be notified, and the expenses must not exceed the established limits.

Expenses related to meals and entertainment for Third Parties or Public Officials must meet the following criteria:

- The purpose of invitations to Public Officials and Third Parties must be solely for business reasons, for corporate purposes, and within the usual framework of the business relationship.
- When it comes to invitations to entertainment events sponsored or organized by any of the EBEDIX Companies, they must be part of a marketing, sales, or similar campaign aimed at current or potential clients and must be approved by the General Manager.
- Invitations to entertainment events not organized or sponsored by EBEDIX are prohibited.
- All expenses must be reported to the corresponding control department.

7. Travel Expenses and Per Diem

It is prohibited to offer, request, or accept invitations to trips, as they may be perceived as an attempt to influence or induce any party to take actions that would improperly benefit the Companies, their Employees, family members, friends, associates, or acquaintances.

When it comes to invitations for business purposes, such as presentations and conferences, they must have a legitimate business purpose, and the travel expenses incurred must be covered by the corresponding EBEDIX Company.

Payments and reimbursements for travel expenses for a Public Official or any Third Party are only allowed for strictly business reasons, and these expenses must not exceed the established limits.

Any action that results in exceeding the pre-established limits in the Policies will require prior approval from the Compliance Department and the General Management.

The travel expenses and per diems that may be authorized correspond to those arising from air or ground transportation, lodging, and meals, which must comply with the following

guidelines:

- Before beginning travel planning, Employees must ensure that the business matter cannot be addressed via phone, videoconference, or another remote communication method.
- They must validate that there is a budget for travel expenses or per diems in their respective department.
- Any expense not related to work matters will not be reimbursed.
- Reimbursements to Third Parties will only apply when there is a contract (or, in the absence of one, an accepted service proposal) that stipulates it.
- All expenses incurred must have a Digital Tax Receipt (CFDI) that complies with the current tax requirements at the time of the expenditure.
- Authorizations for travel expenses and per diems will be processed through the platform or by the method established by each Company.
- The cost of flights, transportation, meals, and lodging will be reimbursed according to the Company's Travel Expenses Policy, which must be aligned with current tax requirements.

8. Lobbying

Under appropriate circumstances, the Companies may participate in initiatives, either their own or proposed by their industry association, to improve existing laws, initiatives, or legal opinions applicable in Congress, state legislatures, and the executive branch at all levels.

When it is deemed necessary to engage in these activities, it must be done in a respectful, legal, transparent manner, while respecting the customs of each region and country. Only Corporate and General Directors, and in some cases, Employees expressly authorized by them, may engage in lobbying activities.

9. Facilitation Payments

Facilitation Payments are a form of Bribery and are prohibited at EBEDIX. No Employee or Third Party acting on behalf of the Companies may make Facilitation Payments, even if such a payment is requested by a Public Official or is considered a common practice.

If there is an extraordinary circumstance where the freedom, health, physical integrity, or safety of the Companies' Employees is at risk, and a Facilitation Payment is made for this reason, this circumstance must be reported immediately to the General Management and the Compliance Department to determine the course of action.

10. Hiring of Former Public Officials

When hiring individuals for permanent, temporary positions, or internships (paid or unpaid), no special treatment should be given to former Public Officials or their family members. The Companies should not engage in discussions about employment opportunities with any Public Official involved in bidding or government procurement procedures in which any of the Companies is participating.

The hiring of former Public Officials must be authorized by the President if it is for an executive position and by General Management in any other case. These hires must not exploit any insider information the former Public Official may have, nor should they violate the restrictions established by the authorities or applicable legislation regarding the hiring of Public Officials.

Before making a formal job offer to any candidate, the General Manager, with the support of the Human Resources department, must inquire whether the candidate or a close family member is or has been a Public Official within the last year. If the candidate is or has been a Public Official, a certificate of non-disqualification from the government, state, or municipal level must be requested. Additionally, the Control department must be informed to analyze any potential Conflict of Interest before hiring the candidate, particularly if the position is an executive one. In such cases, the matter should be submitted for approval as outlined in the Conflict of Interest Policy.

11. Donations and Sponsorships

Donations and Sponsorships are considered part of EBEDIX's legitimate efforts to participate as socially responsible citizens and promote the identity of the Companies' brands. The General Management is the sole authority that can seek approval from the Presidency for such actions.

A formal authorization process must be followed, documenting the verification of the profile of the recipient, institution, or organization that will receive the Donation or sponsorship. Additionally, these processes must be conducted transparently.

Donations

EBEDIX Companies may make Donations or Social Contributions to non-profit institutions and organizations with the aim of contributing to the well-being and development of society and the community.

The Companies must verify that the Donations support one of the following causes:

a) **Promotion of Well-being:** Projects that promote healthy habits and a better quality of life, such as sports or balanced nutrition.

b) **Volunteering:** Programs aimed at involving the community to support individuals in vulnerable situations.

c) **Natural Disaster Relief:** Assistance to individuals affected by contingencies caused by earthquakes, hurricanes, among others.

d) **Education:** Education and training for underprivileged children and young people through institutions with educational programs.

e) **Environment:** Promoting programs for the care and conservation of natural resources.

To grant a Donation or contribution to a non-profit organization or institution, the following guidelines must be followed:

- The institutions or organizations must be legally established and fiscally registered to issue deductible receipts.
- Maintain effective and transparent control over the Donations granted. Donations must be properly recorded in the accounting records.
- Under no circumstances will Donations be granted to individuals.
- No support will be provided to institutions or organizations with which there is a Conflict of Interest with any Employee of the company.

The involved department, with the support of the Compliance department, will conduct a "Due Diligence" of the institution or organization requesting the Donation to detect and prevent potential risks of Corruption or Conflicts of Interest. The result of the "Due Diligence" will be considered by the General Management of the Company before seeking approval from the Presidency.

Sponsorships

The objective of Sponsorships is the promotion of the EBEDIX Companies' brands. To carry out Sponsorships, the Companies must comply with the following guidelines:

- Do not make cash payments.
- Do not accept commitments as a joint obligor.
- Do not commit to Sponsorships for indefinite periods.
- All Sponsorships must be processed formally, specifying the financial amounts, how they will be used, and the beneficiaries.
- Do not grant a Sponsorship that could jeopardize the reputation of EBEDIX or its shareholders.
- Sponsorships must be recorded as such in the accounting records.

12. Gifts

Gifts must be handled in accordance with EBEDIX's Gift Policy, which, among other things, establishes that Employees or Third Parties acting on their behalf should not promise, offer, give, or accept Gifts that are intended to improperly influence the decisions of the recipient

or create a commercial obligation for either party, or that could be perceived as an attempt to improperly influence such decisions or create such an obligation. Providing or accepting inappropriate Gifts can seriously harm our reputation and may be illegal.

13. Relations with Third Parties

Third Parties that have a relationship with the Companies or act on their behalf must undergo periodic certification, the depth and frequency of which will depend on the risk level of their operations in general and the specific operations to be conducted with them.

On the other hand, those responsible for hiring Third Parties must inform them of and request their adherence to the EBEDIX Code of Ethics and Conduct and the Integrity Policy. Any conduct by Third Parties that violates the guidelines established in this Policy, the Integrity Policy, and the Code of Ethics and Conduct may result in sanctions, which can range from termination of the relationship to reporting to the relevant authorities.

14. Safeguarding of Records and Proper Accounting

The Companies must maintain accurate, complete, and accessible accounting records that allow for traceability and accuracy of their operations. No transaction or accounting account should be left out of the official books.

Accounting standards should be applied in accordance with the industry, sector, or business in which the Companies operate.

15. Training

Employees must familiarize themselves with the content of this Policy and participate in the training courses and sessions related to it. Failure to complete the training within the established deadlines will be considered a violation, and disciplinary measures may be applied.

The Control and Human Resources departments are responsible for ensuring that new Employees are aware of this Policy and that it is included in the annual training programs.

16. Supervision and Verification of Compliance with the Policy

It is the responsibility of immediate supervisors, managers, or those responsible for hiring Third Parties to enforce the Policy, lead by example, and provide guidance to Employees.

The Compliance department is responsible for overseeing the dissemination and implementation of this Policy, as well as periodically evaluating its effectiveness and, if necessary, proposing appropriate measures to address any identified deficiencies.

17. Consequences of Non-Compliance

Non-compliance with this corporate policy and with anti-corruption laws may result in warnings, as well as civil and criminal penalties. These sanctions may be applied both at an individual level (natural persons) and at the corporate level, even if the acts were committed outside of Colombia, the United States, and/or Spain.

It is the responsibility of Employees to:

- Understand and comply with this Policy, the Integrity Policy, and the Code of Ethics and Conduct.
- Ensure that their team is aware of and complies with the guidelines of this Policy.
- Help prevent acts of Bribery or Corruption, remain alert to any non-compliance, and report it if it occurs.
- If responsible for managing relationships with Third Parties, ensure that those Third Parties are familiar with and adhere to this Policy.
- Contact the Compliance Department in case of any questions or uncertainties.

Non-compliance with this Policy may result in the following sanctions, depending on the severity of the violation:

a) **Verbal warning**

b) **Written reprimand**

c) **Temporary suspension** from duties or certain benefits

d) **Termination** of the employment relationship

e) **Other legally applicable actions**, including **compensation for damages**

The Ethics Committee is responsible for determining any disciplinary action based on the severity of the violation. Externally, sanctions will be determined in accordance with applicable laws by the relevant authority.

Non-compliance with this Policy by Third Parties may result in the termination of the business relationship with the EBEDIX Companies.

18. Reporting Non Compliance

In accordance with the Code of Ethics and Conduct, Employees must report any known non-compliance with the Anti-Corruption Policy through the Whistleblower Line, which is available 24 hours a day, 365 days a year, via the following channels:

- **Electronic Anti-Corruption Form:** https://ebedix.com/politicas/anticorrupcion/

- **Email Address:** info@ebedix.com
- **Website:** https://ebedix.com/politicas/

DEFINITIONS AND TERMINOLOGY

Associations: Refers to any partnership between companies or individuals (including Joint Ventures and Participation Associations) formed for a common purpose and to undertake a specific business project through contributions of various kinds, without implying the loss of autonomy as a natural or legal person, and with the goal of sharing both benefits and risks.

Lobbying: The process by which EBEDIX or any of its Companies expresses its opinion on a government project or action at any level, through business and international organizations, both public and private, as well as business chambers, trade associations, and media outlets, with the intention of providing authorities with objective information about the sectors in which EBEDIX operates.

Employee(s): Any person who has an employment relationship under an individual or collective written contract with the Companies that make up EBEDIX. The term includes temporary staff, interns, contractors, and members of Corporate Governance Bodies.

Conflict of Interest: A Conflict of Interest exists when the personal interests of Employees or their Family Members, either directly or indirectly, have a real, potential, or apparent influence on decision-making in operations or negotiations, and are in opposition to the interests of the Companies and the duty to act in the Companies' best interest. Conflicts of interest can occur at any organizational level and may be of an economic or non-economic nature.

Political Contributions: These are direct or indirect contributions, monetary or in-kind, made to support political parties, political party officials, politicians, or candidates for elected office. Examples include money, other resources, facilities, or other assets of EBEDIX.

Social Contributions: Payments in cash or in-kind made on behalf of the Companies to non-profit associations with the objective of contributing to the development and improvement of the community's well-being.

Corruption: The promise, offer, or delivery, request, or receipt – directly or indirectly – of any improper advantage (monetary or otherwise) to another person, in violation of their duties, to act or refrain from acting to obtain or retain business or any other improper advantage.

Executive: An Employee at the level of Area Director, Process Director, or General Director.

Donations: Voluntary contributions made as a gesture of commitment to the community, with no expectation of compensation. Donations can be financial support or consist of services or products (in-kind), both new and used, such as clothing, toys, food, vehicles, housing, emergency relief, humanitarian aid items, support for development, and medical assistance, among others.

Due Diligence: Reputational and background checks of acts and lawsuits of a company or person prior to contracting and/or signing a contract or agreement with a Third Party to identify potential risks of Corruption.

Company(ies): All companies that are part of the EBEDIX Group.

Private Entity: Any individual or entity that is not a Public Official.

Entertainment: Sports, social, or cultural events such as games, tournaments, theater performances, or concerts.

Family Member: A family relationship (up to the 4th degree of kinship) is considered in the following cases:

- **By blood (consanguinity) in a straight or collateral line:** Father, mother, grandfather(a), son(a), brother(a), half-brother(a), grandson(a), uncle(a), cousin(a), nephew(a).

- **By affinity or civil relationship:** Spouse, common-law partner, father-in-law, mother-in-law, son-in-law, daughter-in-law, stepson(a), brother-in-law, sister-in-law, fully adopted child.

- **By custom:** Godfather, godmother, godchild, compadre, comadre.

Gratification: Also known as “gift,” it includes any payment made in cash, in-kind, or by discount as a Bribe to ensure or expedite a procedure, negotiation, etc.

Hospitalities: The payment or offering of meals and Entertainment to Third Parties or Public Officials.

Facilitation Payments: Payments made to a Public Official or an individual from a Private Entity to facilitate or speed up a routine process or procedure. These are typically small payments made or requested by low-ranking Public Officials for obtaining licenses, certificates, and other public services.

Sponsorships: The act of supporting an event, activity, project, or organization through a financial contribution or provision of services or products (in-kind), with the expectation of gaining a contractual benefit for the Companies, such as advertising, use of facilities, or other opportunities to promote the company's brand, products, and services. Conferences, symposiums, and externally sponsored congresses should be treated as Sponsorships.

Gifts: Any item of value or benefit given to a person, where the recipient receives it for free or at a value lower than the market price. For the purposes of this Policy, promotional items bearing a company’s brand or those valued below 30 USD, as well as those given by the company to its Employees or exchanged between Employees, are not considered Gifts.

Public Official: Any official or employee of a government body or its decentralized units, whether elected or appointed, acting in that capacity, representing any level of government—federal or national, state, or municipal. This includes, but is not limited to, legislative bodies, ministries or secretariats, judicial bodies, and investigative agencies. It also includes any member of a political party or candidate for any elected position. Employees of government-controlled suppliers are also considered Public Officials.

Bribery: Offering, promising, or giving, as well as demanding or accepting, any advantage or gain, either directly or indirectly, to obtain, retain, or carry out a business for a specific company or secure any other undue advantage to achieve that goal.

Business Partners: Entities that form part of a business relationship with the Companies to generate a competitive advantage. These relationships are established through contractual agreements where each party contributes qualities or characteristics that the other needs for a specific purpose.

Third Party(ies): Refers to all consultants, representatives, distributors, agents, concessionaires, general advisors, resellers, subcontractors, franchisees, accountants, lawyers, sales representatives, customs agents, similar intermediaries, or any service provider with whom the Companies might engage. This concept also includes all Business Partners and Associations with which the Companies do business, as well as anyone who interacts with government entities or officials and whose activities are carried out on behalf of the Company they represent.

TRANSNATIONAL LEGAL AND JUDICIAL FRAMEWORK

1. GENERAL ASPECTS

The following outlines the guidelines, directions, and aspects that form the foundation for the prevention and control of the risk of Transnational Bribery and Corruption at EBEDIX S.A.S. These policies are also an integral part of EBEDIX's Anti-Corruption Policy and any Business Transparency and Ethics Program that the company adheres to.

1.1 Objectives

1) Ensure that EBEDIX complies with international anti-corruption laws through the legal frameworks established in the United Nations Convention against Corruption (UNCAC), U.S. laws established in the Foreign Corrupt Practices Act (FCPA), and Colombian laws within the framework for the prevention of Transnational Bribery and Corruption, including but not limited to what is established in Law 1778 of 2016 and Chapter XIII of the Basic Legal Circular 100-000005 of November 22, 2017, amended by External Circular 100-000011 of August 9, 2021, both issued by the Superintendency of Companies.
2) Prevent EBEDIX, including its Senior Executives, Employees, and Contractors, from unintentionally engaging in any action considered to be a Transnational Bribery and Corruption practice due to a lack of control over operations in this regard.
3) Avoid damaging EBEDIX's reputation by implementing controls to prevent, detect, and correct situations that have the potential to turn into corrupt practices.

1.2 Commitments of Senior Executives and Shareholders

1) All Senior Executives, Board Members, and Shareholders of EBEDIX must commit to preventing the occurrence of Transnational Bribery and Corruption practices. They are required to follow a culture of transparency and integrity within the company, which prohibits any action related to Transnational Bribery and Corruption.
2) B) Senior Executives, Board Members, and Shareholders of EBEDIX must commit to ensuring that EBEDIX conducts its business and transactions in an ethical, transparent, and honest manner.
3) C) In particular, Senior Executives are instructed to carry out the following actions:
4) Approve the provision of the necessary technical and financial resources that the Compliance Officer needs to implement the Business Transparency and Ethics Program and fulfill the mandates established within it.
5) Order the appropriate actions against any Senior Executive in the event that such an individual or entity violates the directives established in the Business Transparency

and Ethics Program.

6) Implement an appropriate communication strategy to ensure the effective dissemination of this Compliance Policy to all individuals associated with EBEDIX, including Employees, all types of personnel (whether permanent or contracted), Contractors, business partners, clients, and the general community.

2. ANTI-CORRUPTION AND ANTI-BRIBERY CONCEPTUAL FRAMEWORK AT EBEDIX

The anti-corruption and anti-bribery policy applies to all Senior Executives, Employees, Associates, Affiliate Companies, and Contractors of EBEDIX. This policy explicitly prohibits bribery and gifts in any form, offered directly or indirectly, or through a third party, with the purpose of obtaining a benefit and/or influencing the company's processes.

EBEDIX's integrity is non-negotiable; therefore, bribery and corruption of any kind are not tolerated, and we will ensure that each of our collaborators complies with the highest organizational standards based on our principles. We will also ensure that each stakeholder conducts their business with EBEDIX in a transparent and responsible manner.

a) In complying with our anti-corruption and anti-bribery policy, we must consider certain concepts and alerts that should keep us vigilant in the development of our activities in every internal process in which we participate, such as:

b) Do not request, accept, give, offer, promise, or authorize sums of money, any item of monetary value, or any other benefit or advantage in exchange for a public servant performing, omitting, or delaying any act related to the exercise of their duties, or in connection with an act, business, or international transaction.

c) Do not accept any type of bribe. Bribes include money, gifts, favors, charitable or political contributions, hospitality, among others.

d) Do not accept gratuities or payments for facilitating procedures, as these are prohibited by EBEDIX.

e) Do not allow or facilitate tax evasion, from any organization or client related to EBEDIX.

f) Do not use business courtesies for any legitimate commercial purpose unless pre-approved before offering or granting them to any public or private official.

g) Always accurately reflect transactions in EBEDIX's books and records.

3. TRANSNATIONAL BRIBERY LEGAL FRAMEWORK

Transnational Bribery

We are faced with transnational bribery when a legal entity, through one or more employees, contractors, administrators, or associates—whether of the entity itself or any subsidiary—offers, promises, or gives a foreign public official, directly or indirectly, sums of money, any item of monetary value, or any other benefit or advantage in exchange for the official performing, omitting, or delaying any act related to the exercise of their duties and in relation to an international business or transaction.

In Colombia, when a case involves a foreign public official, the crime is considered **transnational bribery** (Article 433 of the Penal Code), which carries criminal penalties for individuals and, additionally, administrative consequences for companies according to **Law 1778 of 2016** ("which establishes norms on the responsibility of legal entities for acts of transnational corruption").

In Spain, the bribery law, primarily regulated in the Penal Code, punishes both **the corruption of public officials** (bribery) and **business corruption**, regardless of the country in which the events occur. **Bribery** is defined in Articles 419 to 427 bis of the Spanish Penal Code. **Organic Law 5/2010** also amended the Penal Code to address business corruption, including the payment of bribes between companies.

In the United States, in order to combat these effects, the U.S. Congress enacted the **Foreign Corrupt Practices Act (FCPA)** in 1977 (Department of Justice, 2016), which aims to sanction, both criminally and civilly, the bribery of foreign public officials. Since then, several international organizations, such as the **Organization for Economic Cooperation and Development (OECD)**, have promoted the creation of laws to investigate and penalize acts related to **transnational bribery** or **bribery of foreign public officials** in international commercial transactions.

In each of the countries where EBEDIX currently operates (Colombia, the United States, Spain), there are both criminal and administrative consequences for both the individuals within a company and the company itself. EBEDIX will adhere to anti-corruption laws in each and every country where it initiates operations, whether through the opening of branches in those countries or through the execution of international contracts.

Relationship between Offenses for Giving or Offering (Corruption) and Transnational Bribery:

a) **Coercion for Giving or Offering Bribery (Transnational Bribery)**
This refers to the act of giving or offering a bribe to a foreign public official with the intent to influence their actions or decisions in a business or government context.

b) **Influence Peddling**
This involves improperly using one's influence or relationships derived from a position of authority, either directly or through a third party, to obtain an undue advantage. It is often linked to bribery, where influence is exerted to gain favor or special treatment.

c) **Improper Contracting Due to Corruption**
This occurs when contracts are awarded or concluded due to acts of corruption, where the decision-making process is influenced by bribery or other illicit payments, leading to unfair or illegal contract terms.

d) **Facilitation Payments**
These are improper payments made to public officials to expedite or secure the performance of routine governmental actions that are part of the official's duties. They are often small, informal payments designed to "speed up" or "facilitate" a process but are still considered illegal under anti-bribery laws.

e) **Electoral Financing**
This involves making payments to political campaigns to guarantee favorable election results and, subsequently, secure contracts or other business advantages. It is a form of corruption where financial contributions are made with the expectation of receiving benefits in return, often in the form of government contracts or other business opportunities after the elections.
